

Tasmiah Binte Iqbal

Phone: +88 01567-930875 **Email:** tasmiah00021@gmail.com

Address: 278, MCT LILY, Sher-e-Bangla Road, Rayerbazar, Dhaka

[\[Github\]](#) [\[LinkedIn\]](#)

A dedicated and lifelong learner with a strong interest in technology, data, and innovative problem-solving. With a background in Computer Science and Engineering, I have developed a solid foundation in both software development and data-driven methodologies.

CAREER OBJECTIVE

To build a dynamic and progressive career where I can apply my analytical abilities, technical knowledge, and creative problem-solving skills to contribute effectively to organisational goals. I aim to work in a challenging environment that encourages continuous learning, collaboration, and professional growth, while enabling me to deliver meaningful and impactful solutions.

EDUCATION

Ahsanullah University of Science and Technology	2022 – 2026
Bachelor of Science (B.Sc.) in Computer Science and Engineering	
Birshrestha Noor Mohammad Public College	2020
Higher Secondary School Certificate Science GPA: 5.00	
Birshrestha Noor Mohammad Public College	2018
Secondary School Certificate Science GPA: 5.00	

PROJECTS

- **A 3D Kitchen:** An interactive 3D kitchen simulation built for the web using Three.js and WebGL, featuring custom GLSL shaders, lighting, animations, and real-time user interaction (keyboard & mouse)
Technologies: HTML, CSS, JavaScript, Three.js, WebGL, GLSL, HTML5 Canvas API [\[Link\]](#)
- **Online Voting System:** A secure and user-friendly online voting platform designed to enhance accessibility, transparency, and trust in elections through real-time updates and strict voter authentication.
Technologies: HTML, CSS, JavaScript, Database (MySQL), Authentication System [\[Link\]](#)
- **Blood Bank Management System:** A location-based web platform designed to connect blood donors with recipients efficiently.
Technologies: HTML, CSS, JavaScript, MySQL, API [\[Link\]](#)
- **Alarm Clock – “Must Rise Up”:** An alarm clock enhanced with motion detection to ensure timely wake-ups.
Technologies: Arduino IDE [\[Link\]](#)
- **Traveller:** A mobile travel app to plan trips, manage itineraries, and book services.
Technologies: Dart, Flutter, Android Studio, Firebase
- **Antique Shop Database Management:** A desktop application to manage antique shop inventory and customer records.
Technologies: Java Swing, MySQL

RESEARCH

- **New Methods, No Evidence: A Systematic Gap Audit of LLM-era NLP for Education**
Systematic survey of 137 NLP for Education papers (2022–2025) across four major sectors. Introduced three novel quantitative metrics: Validity Gap (VG = 0.927), Deployment Readiness Index (DRI = 0.126), and Multilingual Equity Index (MEI = 0.126). Identified critical gaps in learning outcome evaluation and South Asian language representation in educational NLP [\[Link\]](#)

- **A Multivariate Analysis of Climate and Energy Consumption Patterns Using Machine Learning with PySpark**
Developed a scalable forecasting framework using ML & DL models on multicountry climate-energy data
Technologies: Python, PySpark, Scikit-learn, XGBoost, TensorFlow, SHAP [\[Link\]](#)
- **Water Quality Analysis And Prediction**
Developed an automated water quality prediction system using supervised, unsupervised, and association rule mining techniques on environmental data
Technologies: Python, WEKA, Random Forest, Decision Tree (J48), Naive Bayes, K-Means, Apriori, Data Mining [\[Link\]](#)
- **Transformer-Based Approaches for Drug-Drug Interaction Extraction from Biomedical Literature**
Developed an automated framework using BioBERT to extract and classify drug-drug interactions from the DDIE extraction 2013 dataset.
Technologies: Python, BioBERT, Transformers, NLP, and Scikit-learn [\[Link\]](#)
- **Drug-Drug Interaction Analysis using Supervised and Unsupervised Machine Learning Approaches**
Developed a drug-drug interaction analysis framework using supervised and unsupervised machine learning on biomedical text data.
Technologies: Python, Scikit-learn, TF-IDF, KMeans, PCA, Matplotlib, Seaborn [\[Link\]](#)

CORE COMPETENCIES

- | | | |
|----------------------------------|-------------------------------|-------------------------------------|
| • Data Analysis | • Machine Learning | • Software Development |
| • Problem Solving | • Data Visualization | • Critical Thinking |
| • Research & Data Interpretation | • Natural Language Processing | • Project Planning & Implementation |

TECHNICAL SKILLS

- | | | |
|-----------|---------|--------------------------------|
| • C / C++ | • SQL | • Data Structures & Algorithms |
| • Python | • HTML | • Java |
| • CSS | • Excel | |

EXTRA-CURRICULAR ACTIVITIES

- **Management Trainee**, Youth School for Social Entrepreneurs (Operations Management Department & IT Department)
- **Intern**, Youth School for Social Entrepreneurs (Operations Management Department & IT Department)
- **Sub-Executive**, AUST Career Development Club (IT Department)
- **Deputy Coordinator**, AUST Programming and Informatics Club

PROBLEM SOLVING AND CONTEST PARTICIPATION

- **Solved 50+ problems:** Codeforces, CodeChef, Toph
- **Participated:** ICPC Dhaka Regional 2023, AUST CSE Carnival, Code Samurai 2022

PERSONAL REFERENCE

Nawreen Anan Khandaker

SQA Engineer
